All prices are Recommended Retail Prices (RRP) including GST. Prices are subject to change or correction without notification. Consumers should enquire with a retailer for actual pricing. All information is provided on an E&OE basis (Errors and Omissions Excepted). Always check fienza.com.au for the latest, up-to-date product information. Images in this brochure are shown with accessories and/or other furniture which is not included in the price, and such products may not be available within our range.

Quality Finishes

Fienza mixers, tapware, showers, bath outlets and accessories are available in various styles and finishes. Our range of colours are applied using different technologies to ensure a finish that is both beautiful and long-lasting.

POLISHED CHROME

Polished chrome endures as the number one finish for its proven durability and versatility for a wide range of bathroom styles.

BRUSHED NICKEL

PVD brushed nickel has a similar look to unpolished stainless steel with a warm grey finish that can add softness to your colour palette.

GUN METAL

The dark, brushed tone of our PVD gun metal finish is ideal for those seeking an industrial, evocative feel for their bathroom.

MATTE BLACK

A premium electroplated coating gives our matte black range consistent colour and a durable finish. It is a popular choice for adding contrast to your bathroom design.

URBAN BRASS

With a lightly brushed finish, PVD urban brass evokes the quality of brass while giving your bathroom a modern stylish accent colour.

INDUSTRY LEADING WARRANTIES*

We are committed to producing high quality durable products that will stand the test of time. We are proud to offer industry leading warranties on our products to give you piece of mind.

*Conditions apply. Please visit fienza.com.au/warranty for details.

SOLID BRASS CONSTRUCTION

Made from solid brass, our mixers and tapware resist corrosion and bacteria, and are designed to withstand high water temperatures.

PEX SPLIT-RESISTANT HOSES

Each Fienza mixer comes with split-resistant PEX hoses. Cross-linked polyethylene (PEX) hoses ensure silent water flow as they expand under pressure and resist splits or cracks. The PE material prevents corrosion, ensuring longevity and durability.

WATERMARK CERTIFIED

Fienza products are manufactured to comply with Australian regulations and plumbing codes and are WaterMark certified.

WATER EFFICIENCY

WELS is Australia's water efficiency labelling scheme and is designed to help you make informed choices about the water efficiency of products you are buying.

The majority of our mixers are WELS 5-Star or 6-Star rated to help you get the most from water efficiency both in the home and in commercial buildings.

All Fienza showers achieve a minimum 3-Star rating, with selected Deluxe Showers achieving a 4-Star rating. Some products, such as wall mixers, are not required to have a WELS rating as they are not sold with the spout that controls water flow.

CLEANING & CARE

- Regularly clean with mild soapy water using a microfibre cloth.
- In highly polluted or coastal locations, we recommend cleaning 2-3 times per week.
- Do not use harsh detergents, bleach, cream cleaners or citrus based cleaners. These substances are abrasive and will damage the surface.
- Do not use undue pressure and wipe in one direction only.

COLOURING PROCESS

Physical Vapour Deposition (PVD)

PVD is an advanced coating process where the colour is fused to the brass on a molecular level. Metals like titanium and zirconium are heated in a vacuum chamber causing them to evaporate. With kinetic energy the ions move onto the surface where they condense and fuse to make a uniform coating. This results in a finish that is highly resistant to scratches and won't discolour over time.

Used for: Brushed Nickel, Gun Metal, Urban Brass

Electroplating

Electroplating involves applying a liquid metal coating to the surface through an electro-deposition process. Several layers are used and are bonded through a living chemical connection to the surface. This ensures continued adhesion and greater durability compared to powder coating where only a single layer is applied. Electroplated tapware requires extra care when cleaning to ensure that it isn't scratched by harsh chemicals or abrasive cleaning cloths.

Used for: Chrome, Matte Black

Kaya

Kaya offers an extensive range of mixers, tapware, showers, accessories and bath outlets to create the ultimate design for your bathroom. Choose from up to five different finishes to suit your style.
