

# Frameless Glass Bath Panel

1015R 1015C

## Important

**INSTALLATION MUST ALWAYS BE CARRIED OUT BY A LICENSED TRADESPERSON**

**MINIMUM 2 PERSON LIFT WITH CARRYING AND INSTALLING BATH PANELS.**

**ENSURE ALL PANELS ARE INSTALLED WITH ADEQUATE BRACINGS**

## Safety information

- Always wear appropriate safety equipment.
- This product requires minimum of two people for lifting and installation.
- Be careful when handling this glass – damage to edges or surface scratches could lead to sudden breakage or cracking of the glass.
- Glass is most vulnerable from impacts to the edges of the panels.
- If glass breaks, injuries may occur.
- If this product falls, serious or fatal crushing injuries can occur. This product should be permanently fixed to the wall – contact your local shower screen supply company for advice on what fastening devices are suitable for your walls.

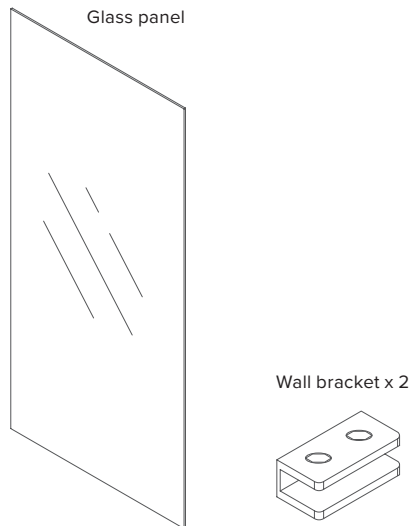

## Cleaning & Care

- Clean regularly using a suitable glass cleaner and clean non abrasive cloth to avoid scratching.

**BEFORE INSTALLATION:** CHECK ALL PARTS OF PRODUCT THOROUGHLY. INSTALLATION IS ACCEPTANCE OF GOODS AND WILL VOID WARRANTY. GLASS PANELS ARE FRAGILE. TAKE EXTRA CARE WHILE TRANSPORTING AND HANDLING GOODS.

All installations should be carried out by a licensed tradesman in compliance and any State or Local Authority Regulations, in accordance with AS 1288:2021 – Glass in Buildings: Selection and Installation. All measurements are in millimetres and are subject to change without notice. Please refer to [fienza.com.au](http://fienza.com.au) for the latest product specification.

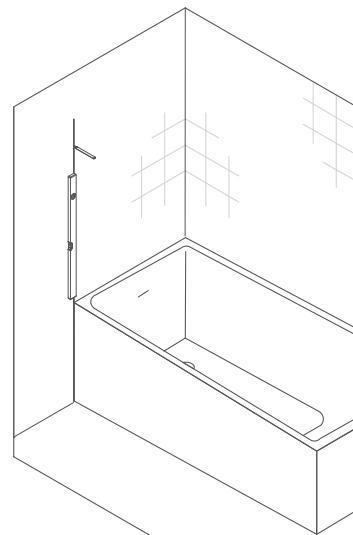

### Bath Panel Parts

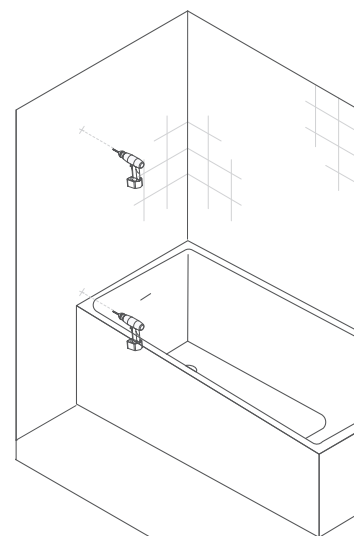

### Installation

1. Determine the position of the bath panel on the bath and ensure there is sufficient wall space and it is clear of obstructions. With the spirit level, check that the wall and bath are level and perpendicular to each other. Measure the wall and mark the position for a minimum of two wall brackets. Ensure the wall is of adequate construction to support the bath panel.

**Note:** If the bath and wall are not perpendicular a wall channel may be required instead of wall brackets. Contact your local shower screen supply company for suitable wall channels.

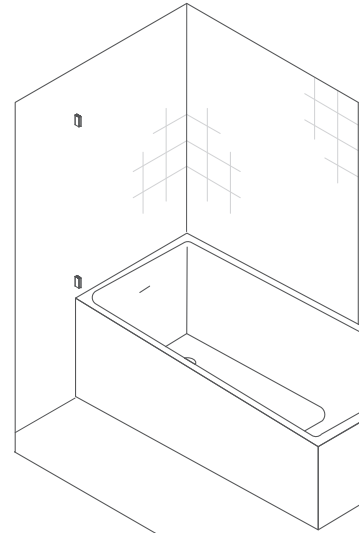

2. Once bath panel position has been confirmed, mark and drill holes for the brackets.

3. Screw brackets to wall (Screws not included).

**Note:** Minimum of 2 brackets must be used on every panel, additional brackets can be purchased online through Fienza or from your local shower screen supply company.

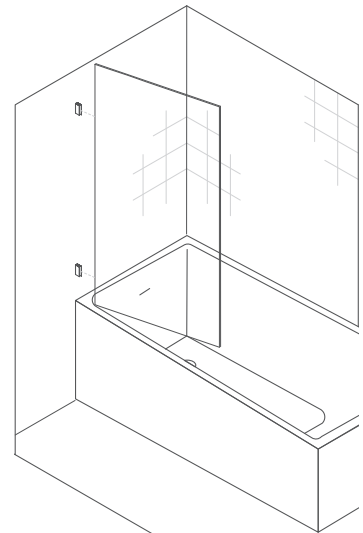

4. Once wall fixings are secure, open glass panel box carefully.

Before lifting glass ensure you are wearing the appropriate safety equipment.

Before resting the glass on any hard surface, ensure you have laid a protective sheet on the floor.

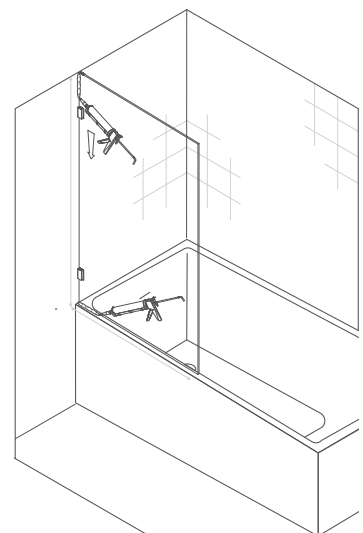

Fit glass into wall brackets.

5. Seal bath panel in with silicone. A Neutral cure sanitary grade Silicon is recommended. Silicone needs to be capable of carrying the loads imposed by the glass, use a suitable nozzle which enables silicone to be adequately forced into the joint, excessive silicone should be removed before curing.

**Tip:** The success of the silicone bond with the glass is reliant on the cleanliness of the glass edge. Use a lint free cloth when applying a cleaner (Isopropyl alcohol or methylated spirits) to the glass prior to bonding.

Allow adequate curing time for silicone as per manufacturer's directions prior to using the Bath.

### Australian Consumer Law

Our goods include guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Fienza Pty Ltd reserves the right to make changes in product characteristics, packaging or availability at any time without notice. Please visit [fienza.com.au](http://fienza.com.au) for the latest information.

### Warranty Conditions

- Installation must be carried out by a licensed tradesperson in accordance with all applicable Building Codes and Federal, State, or Local Government Regulations, and in compliance with AS 1288:2021 Glass in Buildings – Selection and Installation.
- All maintenance and adjustments to the product after the installation have been carried out by a licensed tradesperson.
- All care and cleaning instructions have been adhered to as prescribed.
- All goods of substandard quality manufacture (excluding imperfections permitted within AS1976 - Vitreous China used in Sanitary Applications) will be credited or replaced by Fienza when advised within the warranty period, subject to prior inspection and agreement.
- Proof of purchase is required for warranty claims.

### Warranty Limitations

To the extent permitted under the Trade Practices Act and other relevant legislation, Fienza's liability is limited to:

- The cost of replacing the goods, or
- The cost of obtaining equivalent goods, or
- The cost of having the goods repaired.
- Fienza is not responsible for any lack of operation or performance of goods (or any loss or damage) where goods are used or adapted for use with other goods not supplied by Fienza.
- It is the responsibility of the customer and installer before installation to ensure that all components are correct and free of obvious visible faults.
- Fienza is not responsible for the labour and rectification costs incurred in the above circumstance.

### Conditions for On-Site Warranty Service Calls

Fienza will charge a service fee for each visit to an installation by its technician where it is determined that the fault is due to poorly executed or unlicensed installation work or where the product is not a genuine Fienza product or where the product is outside the warranty period. This may be paid in advance by credit card over the phone to a Fienza technician attending the site and will be refunded if the Fienza product is found to be at fault.

Full Warranty Terms
