## Cleaning & Care

- Wipe with a clean, soft microfibre cloth and mild soapy water or non-abrasive bathroom cleaner. Test in an inconspicuous area before cleaning.
- Please do not use abrasive scour pads, as it can scratch the surface and break down the sealer.
- Avoid exposure to harsh products such as bleach, acetone, or nail polish remover. If exposure occurs, rinse immediately with water to neutralise the effect, and then follow usual cleaning procedure.
- Direct sunlight can cause concrete to slowly discolour over a long period.
- Avoid impact on edges and the surface with hard objects. With daily use, your concrete product may develop scratches, marks, and chipping over time.
- For full cleaning and care details, view the Concrete Care Guide on our website.
