# Nero

# Nero

## Builders Range

Nero has designed a collection of builder/project style tapware that is adaptable to the budget conscious consumer as well as project and volume builders. The range contains 4 collections and up to 5 different colours specifically designed and manufactured to stand up to day-to-day use. All come with a full range of accessories to compliment the overall look and feel of the space. This is backed by our warranties and guarantees to ensure the experience with our products is a memorable one.

For the ultimate convenience our latest evolution is the Universal Body allowing flexibility for both the builder and consumer.

# UNIVERSAL BODY

## Consumer Advantage

Fit off universal bodies during rough in stage allowing the customer to delay their design decision until later in the build cycle. This way the customer can continue to monitor the most current trends around style and colour as they continue to evolve their interior design theme.

## Installers Advantage

This is of great benefit to the plumber who does not have to store the trim kits until fit off thus reducing storage cost, damage, or theft. In addition, they can also purchase universal bodies from their merchants in quantities saving valuable time.

## Collection Options

Universal bodies are available for most of our builders collections, allowing the customer to select from up to 5 colour options. This will continue to evolve, as we design and manufacture future collections.

## Switch Styles

The benefit of our universal body for the future is the ability to change styles and colour by simply replacing the trim kit, this will take a matter of minutes with no need to remove or damage tiles or the walls surface.
